

Instructions for QA Engineer: This document provides an exhaustive checklist covering functional verification, responsive design across mobile/tablet/desktop, scroll-to-play video mechanics, Framers Motion staggered animations, and design system compliance. Mark each item as Passed/Failed during regression testing.

11 / 11 PASSED AUTOMATED VITEST SUITE	7 BREAKPOINTS RESPONSIVE MATRIX (375–1920px)	0 BUILD ERRORS NEXT.JS TURBOPACK CLEAN
--	---	---

1. Brand & Design System Compliance

Check Item	Expected Behavior & Verification Criteria	Priority	Status
Brand Identity & Logo	Navbar displays custom SVG crest emblem with 'Ember & Oak' and 'Craft Kitchen & Woodfire Grill'. Old names ('Golden Star', 'StarCraft') completely removed.	P1	[] Pass
Page Title & Meta	Browser tab title reads Ember & Oak Craft Kitchen & Woodfire Grill. Favicon and OG meta descriptions match brand identity.	P2	[] Pass
Footer Brand Block	Footer contains Ember & Oak emblem, description, operating hours (Mon–Sun: 11:30 AM–11:00 PM), and contact info.	P2	[] Pass
Minimalist Eyebrows	Section eyebrows are sentence case 14px text in muted gray with optional 24px subtle line. NO capsule pills, sparkles, or uppercase tracking.	P1	[] Pass
Card Tags Token	Product tags use 12px font, 6px radius, subtle solid background. Max 1 tag per card ('Popular', 'Chef's special'). Zero fake urgency.	P1	[] Pass

2. Scroll-to-Play Video & Hero Section

Check Item	Expected Behavior & Verification Criteria	Priority	Status
No Autoplay on Load	On initial page load, video does NOT play automatically. Video remains paused at first frame waiting for scroll interaction.	P1	[] Pass
Single Scroll Trigger	When the user scrolls one time (mouse wheel, touch swipe, or scrollbar movement), video begins playing and continues looping smoothly.	P1	[] Pass
Zero Video Overlays	NO buttons, play/pause badges, glassy overlays, or status pills appear on top of the video container. Video is 100% clean and unobstructed.	P1	[] Pass
Background Color #DDDDDD	Hero section background is exactly #DDDDDD, matching video canvas seamlessly. Transition gradient into white section eliminates extra space.	P2	[] Pass
Offscreen Pause	IntersectionObserver automatically pauses video playback when scrolled completely out of view to save CPU/battery, and resumes when scrolled back.	P2	[] Pass

3. Framer Motion Staggered Animations

Component	Staggered Motion Behavior	Priority	Status
Hero Content	Headline, Subtitle, CTA buttons, and Prep Note enter sequentially with staggered delays (0s, 0.15s, 0.28s, 0.42s).	P1	[] Pass
Menu Cards Grid	Upon scrolling to Menu or switching category filters, cards animate in one by one with 0.07s stagger delay between each card.	P1	[] Pass
Category Filter Pills	Category filter buttons (All, Burgers & Grill, Sides, etc.) cascade in one by one.	P2	[] Pass
Our Story Pillars	The 3 craft pillars ('Fresh Ingredients', 'Flame Grilled', 'Craft Combinations') reveal sequentially with 0.15s delay.	P2	[] Pass
Combo Meals	The 3 combo cards (Classic Set, Double Smokehouse Set, Triple Burger Feast) enter sequentially with 0.15s delay.	P1	[] Pass

4. Functional Verification & User Flows

Feature Flow	Test Steps & Verification Points	Priority	Status
Menu Filtering & Search	Click category pills (All, Grill, Starters, etc.). Verify instant filtering. Type search term in search input; verify real-time matches and 'Clear' button.	P1	[] Pass
Cart Drawer & Order Flow	Click '+ Add' on any dish. Header cart counter increments. Open Cart Drawer: verify item title, price, quantity +/- buttons, remove item, subtotal.	P1	[] Pass
Combos & Feasts	Click 'Add Combo to Order' on Double Smokehouse Set. Confirm combo added to cart with correct price (\$32) and checklist items included.	P1	[] Pass
Order Booking Form	Select 'Pickup / Takeaway' or 'Local Delivery'. Fill Name, Phone, and Time Slot. Click 'Confirm Order Booking'. Verify celebration modal and Order ID.	P1	[] Pass
Footer Contact & Hours	Click phone link to initiate call on mobile. Verify opening hours: Mon-Sun 11:30 AM – 11:00 PM. Newsletter input displays confirmation message.	P2	[] Pass

5. Responsive Breakpoint Testing Matrix

Device / Breakpoint	Dimensions	Critical Verification Points	Status
Desktop 4K / Widescreen	1920 × 1080+	Max-width 1280px properly centered; no stretched images; video positioned neatly in right column; clean typography margins.	[] Pass
Standard Laptop	1440 × 900	2-column hero split; sticky navbar blur visible; menu displays in 3-column grid; no layout shifts.	[] Pass
Tablet Landscape	1024 × 768 (iPad)	Navigation links remain horizontal; menu grid switches to 2 or 3 columns; combo meal cards render without truncation.	[] Pass
Tablet Portrait	768 × 1024 (iPad)	Hero stacks cleanly or maintains 2 columns without clipping; category filter pills scroll horizontally with smooth momentum.	[] Pass
Large Mobile	430 × 932 (iPhone Pro Max)	Headline stacks on top of video; burger video visible 100% with no overlay; hamburger menu works smoothly; minimum 44px tap targets.	[] Pass
Standard Mobile	390 × 844 (iPhone 14)	Cart drawer full-width sliding from right; zero horizontal page scroll; touch swipe triggers video playback seamlessly.	[] Pass
Compact Mobile	375 × 667 (iPhone SE)	Font sizes scale cleanly; combo selector buttons do not wrap awkwardly; checkout button always accessible.	[] Pass

6. Automated Unit Tests & Accessibility

Execute automated tests via npm test (Vitest runner):

Test Suite File	Verified Assertions	Automated Result
ScrollVideoHero.test.tsx	• Video element rendered without autoPlay attribute • Initial mount invokes pause(), NOT play() • Zero button or overlay elements present over video • window.scroll event triggers video.play() • window.wheel event triggers video.play() • window.touchmove event triggers video.play() • Event listeners properly unregistered on unmount	7 / 7 PASSED 100% Green
BrandLogo.test.tsx	• Renders brand name 'Ember & Oak' • Renders subtitle 'Craft Kitchen & Woodfire Grill' • Renders vector SVG crest emblem • Supports iconOnly prop	4 / 4 PASSED 100% Green
